

To Whom It May Concern,

This is a letter of recommendation for Julie Felder. I was the Director of Sales for Clear Channel Radio. Julie worked for me during my tenure there and was always a very good sales person. She was extremely good at developing relationships with new clients and bringing in new business while giving a high level of customer service to existing customers. She was always very thorough and consistently a leader among the sales people. She always had a very upbeat attitude and was always willing to help newbies learn the ropes. If you have an opportunity to hire her do it. Employees like Julie don't come along very often.
